CERTIFY™
Quality Assessments

About Us

Certify for Quality Assessments is an ISO 17065 accredited Product Conformity Assessment Body (CAB), and a Notified Body by SASO to issue SABER PCOCs.

We are dedicated to facilitating the export of products from Egypt, the Middle East, and North Africa (MENA) to Saudi Arabia by ensuring full compliance with all SASO (Saudi Standards, Metrology and Quality Organization) technical regulations and standards.

With over 12 years of experience in the quality field, we provide solutions to overcome the challenges that exporters to the Saudi market might face.

Vision & Mission

Our Vision

To be a world-leading certification body and the trusted gateway for Middle Eastern exporters, ensuring their products and systems are certified seamlessly and accurately.

Our Mission

Our mission is to empower exporters, importers, and logistics partners with seamless, high-quality certification services. We are committed to delivering fast, comprehensive quality assessments backed by exceptional technical support and customer care, driving continuous improvement and success for our clients both locally and globally.

Core value

Reliability

We adhere to strict standards to guarantee your certificates are accepted without rejection.

Efficiency

We understand the value of time in logistics; therefore, we process requests in record time.

Transparency

Complete clarity regarding procedures and costs from day one.

Expertise

Our team stays up-to-date with the latest regulations and amendments from SASO.

Our Services

1 SABER Platform Registration

Complete management of facility accounts on the SABER platform, including accurate product classification according to approved HS Codes.

2 Technical Review

Reviewing product labeling, packaging, and laboratory test reports before shipping to ensure full compliance with Saudi standards and avoid any port rejections.

3 Product Certificate of Conformity (PCOC)

Assisting manufacturers in preparing necessary Technical Files and test reports to issue the annual Product Certificate of Conformity for regulated products.

Why Choose Certify?

Niche Expertise

Our singular focus on the Saudi market gives us unmatched insight into regulatory details.

Extensive Network

We cooperate with accredited laboratories and trusted government bodies.

Local Support

We are present in the Middle East and Europe to handle all procedures on your behalf, eliminating any hassle.

End-to-End Solutions

From the factory floor to the Saudi market shelves, we support you at every step.

Our Workflow

Assessment

Analyzing the product and identifying applicable SASO standards.

Documentation

Preparing technical files and test reports.

Registration

Uploading data to the SABER platform.

Verification

Coordinating audits with Notified Bodies.

Issuance

Delivering your PCOC and SCOC certificates.
